

MARKSMAN™ 10

Table-Top Wrap Locking Module

MARKSMAN™ 10

Cans | Bottles | PET

The ultimate in convenience and portability, this unit requires no power, being fully operated by the efforts of the operator pushing the pack through the unit. It can be placed on top of a desk or table for use, and can be stored under the table or standing in a corner or closet when not in use. The unit has the ability to be adjusted for different package sizes and formats.

MM10

Pack Styles

Standard:

Over the Crown, Neck Through, Straight Wrap

Optional:

Ad-panel, Handle Wrap

Full Tucked AD Panel

Speed / Pitches

Ideally suited for multi-packaging operations with low volume needs such as market trials or special products and containers.

Packaging from 6 to 15 packs per minute is realistic. These speeds depend upon product type and operator dexterity.
